

## **FOR IMMEDIATE RELEASE**

### **Press Release Leistriz Advanced Technologies Corp., June 7, 2017**

**Leistriz Advanced Technologies Corp.** is pleased to announce the installation of two Multiphase Production Systems (MPS) in Kuwait. The project was executed by Mechanical Engineering & Contracting Co. (MECC) of Kuwait and the MPS's are located in the Greater Burgan Oil Field. Each Leistriz MPS satisfied rigorous manufacturing and testing requirements and will boost up to 300,000 bpd equivalent of multiphase flow from a production well gathering facility to a central processing facility.
